## Introduction

**mineLatinAmerica 2016** takes place in Toronto on Monday November 14, 2016. This full-day event features updates by public and private mining companies on their Latin American projects and panel discussions on doing business in Latin America's mining industry (legislation, financing mining projects, risk mitigation, CSR, etc.) by expert advisors and service providers to the mining industry (financial institutions, law firms, accounting and engineering firms, consultants, etc.) as well as country specific overviews.

In addition to the seminar presentations **mineLatinAmerica** features a keynote address, networking exhibit room, networking luncheon and wrap-up cocktail reception.

Presenting gives you a cost-effective opportunity (C\$3,250 before September 14 and C\$3,750 after) to promote your mining project, company, expertise or services to a senior level audience of financial and mining executives, advisors and media, all with a specific interest in mining in Latin America - in the world's mining financing capital, Toronto.

Our Premier Sponsors are **Toronto Stock Exchange and TSX Venture Exchange** and **Norton Rose Fulbright**. **KPMG** is a Corporate Sponsor and host for the event and **Hatch** is our CSR Panel Sponsor. The seminar is also organized in partnership with the **Mineral Resource Analyst Group (MRAG)**, an association of the senior Canadian mining analysts and their associates whose members will form an integral part of the audience. In addition the audience will comprise senior executives from mining companies, analysts, investment bankers, fund and asset managers, service providers (law firms, engineering firms, consultants) and mining media. Our audience breakdown is as follows: 25% from the financial sector (analysts, investment banks, etc), 17% senior mining executives, 17% service providers and advisors to the mining industry, 13% lawyers, 5% educational institutions, 4% media, 4% engineering firms, 3% associations, and 12% other.
